

CANAL POINT

Mr. and Mrs. Jack Hamilton left Tuesday to plant lemons in N. Y. after a stay of seven months in Canal Point. Jack traded in his 1926 model Studebaker on a new Chrysler Hudson to make the trip north in. He took along a rake and two hoes and was to tell everybody that these were the tools with which he made the price of the new car out of crops of lemons and squash.

A good many negro farmers have done fairly well with their crops this season and the talk among them is that most of the colored people will stay here this summer and will try to get land to clear on deals for their use of the land in exchange for clearing it for next season.

A. G. Belcher, formerly of Houston, Texas and lately an employee of the sugar company, is working on the fountain at Miller's drug store.

Mr. and Mrs. Walter Parvin of Palm Beach called on friends in the Everglades this week. They used to live on Rita Island for the past two years Mr. Parvin ran a charter boat for tourist fishermen on the ocean.

Ben Henry, secretary of the flood control district, called in Canal Point yesterday. He was getting information as to the acreage of crops on the island.

County Engineer Jake Boyd inspected roads in this territory Tuesday. T. G. Thompson of Loxahatchee accompanied him.

Present besides Mrs. Barrett were: Annie Marie Maloy, Marie Thompson, Hazel Elliott, Marjorie Cochran, Edith Willis, Cole Jones, Kathryn Gray, Mary Baker and Elizabeth Willis.

WE WONDER WHY

All the seniors were "dressed up" Tuesday. The husbands had "dressed up" their wives.

Jack's full name is John Edward Winnie and he is a son of Mr. and Mrs. Rosa Winnie of Terry, and Ruth's middle name is Elizabeth and she is a daughter of Mr. and Mrs. J. N. Tyrer, who live in the district north of Canal Point known as "Tyrerville."

The Winnie and Tyrer families are real pioneers on the island. Rosa having homesteaded land on the island and Mr. Tyrer being one of the first purchasers on the mainland.

The editor does not recall any other marriage that united two families of such long residence in the Everglades. It is a reminder that the upper Everglades is now in the stage of the second generation.

WILLIAMS-SIMS

Licenses to wed were issued Monday at West Palm Beach to Elizabeth Floyce Williams and Elizabeth Camilla Sims of Canal Point.

The prohibition agents came around with a search warrant and they searched the place and found the wine and probed in the ground around the house with long pieces of iron. The liquor dealer was telling a friend about it. "And," he says, "when they brought down a case of whiskey I had up there. They never thought to look on the roof. What do you say to that?"

"Well," his friend said, "now that you ask me, I say it looks as if the drinks were on the house."

COMMUNITY GOSSIP

A Canal Point resident was talking about a man who is generally addressed as "Doctor": "He gladder safe," the Everglades said; "I don't know what kind of a doctor he is. He comes from up north somewhere; he is a Yankee, from Maine, I think. May be he is a horse doctor, but I don't know whether they have any horses up there; may be he is a 'veterinarian' doctor."

Wet Jennings made a peach of a talk Friday at the weekly luncheon meeting of the Pahokee Rotary Club. What he said made more of an impression because he said it than if some other person had said it, for will is not a real estate agent and has no reason to view things in other than their true light. He is to be president of the Rotary Club in the new term and the club and the community will be enabled to make use of his services in bringing about the good conditions that he foresees.

Hugo Doe has broken his arm three different times cranking cars for other people. That, he says, is the reason he is now in business where he can sell a man a battery for the car instead of cranking it for him.

Now that tomatoes are being planted with more care than ever in the entire season of 1930 or 1929, a Pahokee man has been something he never saw before and learned something. He has seen the pictures of some great Americans on currency and learned the denominations of the currency. The picture of Alexander Hamilton is on the \$50 bill, Andrew Jackson's on the \$20 bill and U. S. Grant's on the \$10 bill. Above \$20, he has not had opportunity to get information.

It wouldn't be worth while for the Woman's Club or any other organization to put in a free reading room at Canal Point—there are plenty of free reading rooms now, and free readers. There are people who try to make a living out of selling newspapers and magazines but some other persons don't seem to know it, judging by the way they take up all the room in the news dealer's store and read everything there without spending any money to buy a newspaper or a magazine.

DRAFT OF DRAINAGE BILL

Continued from Page One

of the board, the total amount of such drainage tax to receive a receipt in full therefor. When any such assessment has been paid in full, the secretary shall enter upon the said drainage tax roll, opposite each tract for which payment is made, the words "Paid in Full" and such assessment shall be deemed satisfied. The payment of such assessment shall not relieve the landowner of liability for the payment of a maintenance assessment law for the payment of any further assessment which may be necessary as herein provided.

(b) Failure to pay the whole assessment within the said period of ninety days shall be conclusively considered and held an election on the part of all persons interested to pay such assessment in installments, as hereinafter provided. All persons so electing to pay in installments shall be conclusively held and considered as consenting to said plan of improvement and all work thereunder, the issuance of bonds and the payment of interest thereon, and such election shall be conclusively held and considered as a waiver of any and all right to question the power or jurisdiction of the district to construct the works set forth in said plan of improvement, the regularity or sufficiency of the proceedings, and the validity and correctness of such assessment.

Sec. 27.—In case of such election to pay in installments the said assessment shall be payable in not more than fifty annual installments of principal, with interest, in all cases, on the unpaid principal, computed and payable annually from the filing of the drainage tax record, at the rate of six per centum (6 per centum) per annum.

Sec. 28.—After the expiration of the period of ninety days within which the landowners may pay their respective assessments, as provided herein, the secretary shall certify to the board the aggregate of the amount so paid, and thereupon the board shall pass and spread upon its records a resolution which shall appropriate the uncollected assessments into annual installments, or levies, which shall become due annually on the first day of November and be delinquent on the first day of April following, and interest on such levies or levies, shall bear interest, as aforesaid, at the rate of six per centum (6 per centum) per annum, payable annually.

Sec. 29.—(a) The board, in its judgment it seems best, issue negotiable bonds of any unit district in an amount not to exceed ninety per centum (90 per centum) of the total assessments levied and unpaid as shown by the drainage tax record of such unit district. The said bonds shall be in denominations of not less than One Hundred Dollars (\$100), shall bear interest at a rate not to exceed six per centum (6 per centum) per annum, payable semi-annually or annually, and shall mature at intervals within fifty (50) years from date of their issuance, and both principal and interest of such bonds shall be payable at a place or places determined by the board and designated in the bonds.

(b) The residue of the total assessments levied by the board—that is to say, not less than ten per centum (10 per centum) thereof, shall constitute a contingent fund to protect the bonds from casual default, and if not needed for this purpose may be transferred from time to time to the maintenance fund of the unit district.

(c) The bonds shall show on their face the purpose for which they are issued and shall be payable solely out of the construction fund assessment levied by the Board of Commissioners of Everglades Drainage District for and upon behalf of the unit district issuing such bonds. Said bonds shall be payable to bearer, shall be signed by the chairman, or vice chairman, or any member of the board, shall be thereto affixed and attested by the signature of the secretary. Interest payments shall be evidenced by coupons bearing a facsimile of the signature of the chairman or vice chairman of the district. In case any officer, whose signature or certificate appears upon bonds or coupons issued pursuant to this Act shall cease to be such officer before the delivery of such bonds or coupons, the signature or certificate or certificates shall, nevertheless, be valid and sufficient for all purposes, the same as if such person had remained in office until the delivery of the bonds.

(d) All bonds issued under the provisions of this Act may be validated in the manner now, or hereafter, provided for the validation of bonds of special taxing districts.

Sec. 30.—(a) All of said bonds, when executed, shall be delivered to the treasurer of the district, who shall sell the same in such quantities and at such times as the board may order to meet the payments for the works and improvements of the district. Said bonds shall not be sold for less than ninety per centum (90 per centum) of par value, plus accrued interest. The said bonds shall show on their face that they are bonds of the unit district for which they are issued and that they are payable solely out of money to be derived from special assessments levied by the Board of Commissioners of Everglades Drainage District for such unit district.

(b) This Act shall, without reference to any other Act of the Legislature of Florida, be full authority for the issuance and sale of bonds of unit districts in this Act authorized, which bonds shall have all the qualities of negotiable paper under the law merchant and shall not be invalid for any irregularity or defect in the proceedings for the issue and sale thereof and shall be incontestable in the hands of bona fide purchasers or holders thereof for value. No proceedings in respect to the issuance of any such bonds shall be necessary, except such as are required by this Act. The provisions of this Act shall constitute an irrevocable contract between the unit district and the holders of any bonds and coupons issued pursuant to the provisions hereof. Any holder of any of said bonds or coupons may either at law or in equity, by suit, action or mandamus, enforce the payment of the principal and interest due on any of said bonds or coupons to the collection, enforcement and application of the taxes for the payment thereof; provided, however, that the said bonds shall constitute obligations only of the unit district in the name of which the same are issued and shall never be construed to be obligations of Everglades Drainage District.

I'm on the fence right now."

Cliff Boe, the **Canal Point** Garage man, was broadcasting the other night. "Man came into place today and wanted to sell me some insurance.
